From the Governor

Montana is known for our wide-open spaces and the beautiful expanse of the "Big Sky". Montana also has an ideal climate for many agricultural enterprises. Producers of Montana's bounty require the services of individuals in all aspects of agriculture in order to be successful. The Montana Agricultural Buyers Directory provides a resource that links agricultural producers and those individuals buying, manufacturing, or selling the products that keep the day-to-day operations of farming and ranching going smoothly.

The companies listed in the Buyers Directory have the capabilities to supply high-quality products and services, both needed and desired by other businesses, our agricultural industry, and the public consumer.

This Buyers Directory is an important tool to promote and facilitate agricultural trade which is so important to the well being of Montana's economy.

Judy Martz

JUDY MARTZ
Governor

From the Director

Agriculture is Montana's largest industry and its economic foundation. This directory includes Montana agricultural business owners who produce or supply Montana products. We are proud of these businesses as they expand Montana's economic base.

The Montana Department of Agriculture is pleased to do all we can to assist our industry and businesses as they are key to our future. Our marketing staff can provide valuable assistance to both buyers and sellers as you develop new or expand existing markets.

You may have noticed the grassland image we used as a part of this directory's logo. Just as grass is a resource for livestock producers and grains are a resource for our crop producers, we hope this directory will serve as a resource for farmers, ranchers, and agricultural businesses.

Thank you for your interest in Montana. We hope that this "Buyers Directory" will assist you in contacting suppliers of premium Montana products.
